

# Portable Dental Chair

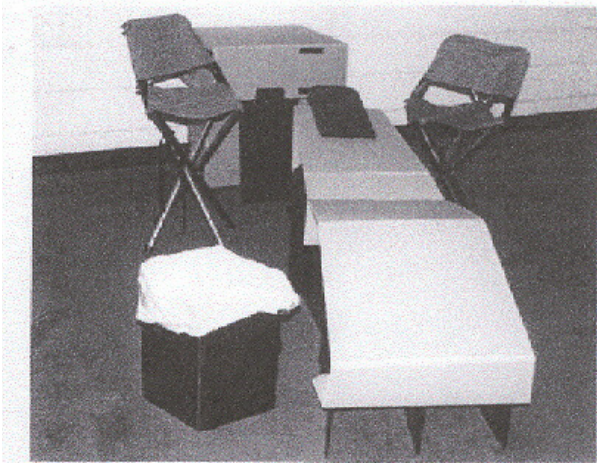

Christian Dental Society PO Box 296 Sumner, IA 50674 563-578-8887 cdsent@netins.net

Our dental chairs sell for \$395.00 and have just recently been improved. The new chairs are made of corrugated plastic and are extremely durable. A silver emulsion is mixed with the plastic to keep bacteria from living on the surface. This will be the first time they have done this outside of military applications. Cold, heat and dampness have no effect on them. The new chairs do not have the doctor or assistant stools which a lot of people complained about but we can add a folding chair that fits in the box for the doctor for \$61.00. These folding chairs even have a back which feels real good when your lean back after working in the mouth. Most of the time the assistants are standing. They could also use one of these if they like. Two will fit in the box and they are lighter then the plastic ones. They weigh about 25lbs so you can pack them with dental supplies to get the weight up to the allowed airline weight.

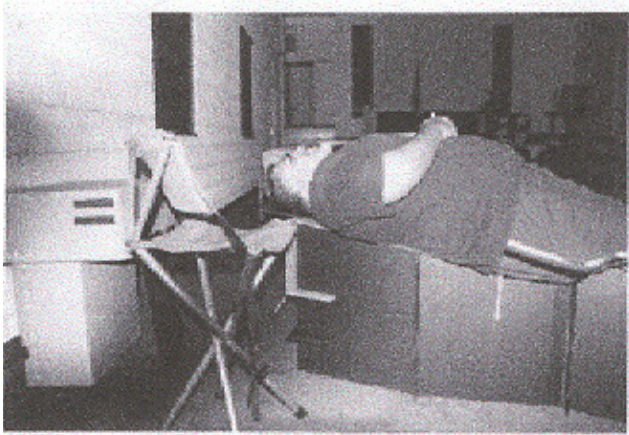

Add a folding chair and you have the complete setup weighing 24 lbs. There is room to add supplies in the box to max it to the allowed airline weight of 50 lbs.

**Remember, the purpose of this chair is to help us in using our talents to spread the gospel of Jesus Christ. Be flexible and compassionate as you serve Him.**

A volunteer weighing 300 lbs demonstrates the strength of the chair.
